

REMARKS

Applicants have submitted this response in accordance with the requirements of rule 1.173(b) (2) and (d) and MPEP 1453.

Claims 1-20 are shown as originally issued, there being no amendments to these claims. Claims 21-59 are shown as underlined to indicate that they were added during reissue. Cancelled claim 45 is retained.

Claims 21 and 35 differ primarily by use of the word "any" in claim 35. Use of the word "any" is intended to mean that *if* both a weight increase and a weight decrease are detected, generating a match signal if the weight increase matches the weight decrease. An amendment has been made to claim 35 to remove ambiguity.

Respectfully submitted,

Paul W. Martin
Attorney for Applicants
(937) 445-2990

Dayton, Ohio
